OSMAN MAZINOV

SENIOR BACKEND ENGINEER (.NET / DISTRIBUTED SYSTEMS / AZURE / INDUSTRIAL INTEGRATION)

+4916096269388 | mazzinov@gmail.com | Germany, Troisdorf 53840
GitHub | LinkedIn profile | Portfolio

SUMMARY

Senior Backend Engineer with 10+ years of experience designing and building distributed systems in C# and .NET across fintech, aviation, and industrial domains. Specialized in backend architecture, system reliability, and integration of complex systems, including hardware and industrial protocols. Experienced in building production-grade services with secure communication, high availability, and cloud-based architectures.

PROFESSIONAL EXPERIENCE

item Industrietechnik GmbH | Software Engineer · Backend & Integration

May 2024 - Present

- Designed and evolved layered backend architectures for industrial automation systems, focusing on long-term maintainability and reliability.
- Enhanced system reliability and stability of distributed communication between edge devices and cloud services.
- Developed middleware APIs in .NET/C# enabling stable communication between industrial hardware and cloud systems (MQTT, Modbus, TCP/UDP).
- Contributed to system architecture decisions, integration strategies, and backend service design.
- Collaborated in an R&D environment to integrate industrial protocols with cloud-based monitoring and data processing pipelines.

Career Break - Relocation & Self-Development

Nov 2022 - May 2024

- Completed German language training to B1 level (Milling Sprachenschulen).
- Contributed to open-source projects and maintained personal GitHub repositories.
- Developed side projects in .NET/C#.

Arsis | Full-stack developer

Jul 2022 - Oct 2022

- Contributed to the design and development of secure enterprise web applications for Fortune 500 pharmaceutical clients.
- Designed and implemented automated inventory management systems for sensitive medical supply data across international markets.
- Ensured data integrity, GDPR compliance, and secure access control through RBAC and API security best practices.

U – Tek LLC | Software Engineer (Backend / .NET / Azure Cloud / Microservices)

Jul 2018 - Oct 2022

- Architected and developed mission-critical fintech microservices for a UK-based platform, focusing on high-throughput processing, fraud detection, and scalable API design.
- Built backend and middleware components for an aircraft passenger multimedia system, including hardware integration APIs and real-time content synchronization.
- Developed safety-critical computation services for aviation systems (runway safety), achieving high reliability through extensive unit and integration testing.
- Designed and implemented control software for automated industrial storage systems, optimizing inventory placement and retrieval logic in constrained environments.

Viburn LTD | .NET Developer

Sep 2017 - Jul 2018

- Developed enterprise applications (WPF, WinForms) integrating OpenCV and EmguCV for face detection and recognition.

H2O LTD | Electronic Engineer

Jul 2014 - Jul 2018

- Designed Hardware.
- Developed firmware for AVR and STM32 microcontrollers.
- Programmed PLCs and industrial controllers, including Raspberry Pi integration.
- Built a desktop diagnostic tool for frequency converter analysis (PID tracing, real-time charting) via Modbus RTU.

Microtronic | Electronic Engineer

Sep 2011 - Jul 2014

- Managed the full development cycle of electronic devices, including schematic design and PCB layout.
- Developed firmware in Embedded C for Atmel AVR microcontrollers.

Fiolent | Electronic Engineer

May 2008 - May 2010

- Designed and developed custom electronic devices and hardware components for industrial applications.
- Engineered automation modules and programmed PLC logic for critical ship systems.

EDUCATION

Sevastopol State Technical University
Specialist Degree, Physical & Biomedical Electronics · 2009
Evaluated by ZAB: German university degree, between Bachelor's and Master's level

Sevastopol State Technical University
Bachelor's Degree, Electronics · 2008
Evaluated by ZAB: equivalent to a German Bachelor's degree

TECHNICAL SKILLS

- Languages & Frameworks: C#, .NET (6/8/10), ASP.NET Core, WPF, WinForms, TypeScript, JavaScript
- Databases: PostgreSQL, MSSQL, MongoDB, Azure Cosmos DB
- Cloud & DevOps: Azure, Docker, CI/CD (Azure DevOps Pipelines, GitHub Actions)
- Messaging: RabbitMQ, NServiceBus, Azure Service Bus
- Protocols & Integration: MQTT, Modbus, TCP/UDP, mTLS, REST APIs, Async API
- Practices: Microservices, Clean Architecture, RBAC, Unit & Integration Testing, Agile (Scrum, Kanban)

LANGUAGES

- English - Professional working proficiency
- German - B2
- Ukrainian - Fluent
- Russian - Native
